VI. Foundation Information:

Most of the north Texas area soil is expansive type clay. Therefore, proper care of your home's foundation is very important in preserving the integrity of the structure. Clay soils have the ability to expand (when wet) or to contract (when dry) at alarming rates. This requires that an EVEN and rather CONSTANT level of moisture be maintained around the ENTIRE house. Defects in the foundation occur when the structure does not move as a unit. This could occur when one area around the foundation is continually wet, while other areas remain dry. Listed below are a few suggestions that may help in your foundation maintenance program.

- 1) Never allow the soil to dry to the point of cracking or pulling away from the foundation.
- 2) Maintain the grading & beds around the foundation so that it gently slopes AWAY from the structure.
- 3) If the house has guttering, be sure that all run-off is diverted well away (3 or more feet) from the foundation.
- 4) The area around the foundation should always be watered around the ENTIRE structure.
- 5) The best way to ensure adequate watering is to place soaker hoses around the entire perimeter or install a sprinkler system.
- 6) Do not let water stand next to the foundation.

VII. LIMITATION OF LIABILITY

By signing this Agreement, Client acknowledges that the Inspection Fee paid to the Inspector is nominal given the risk of liability associated with performing home inspections if liability could not be limited. Client acknowledges that without the ability to limit liability, the Inspector would be forced to charge Client much more than the Inspection Fee for the Inspector's services. Client acknowledges being given the opportunity to have this Agreement reviewed by counsel of his or her own choosing and further acknowledges the opportunity of hiring a different Inspector to perform the Inspection. By signing this Agreement, Client agrees to liability being limited to the amount of the Inspection Fee paid by the Client.

VIII. Dispute Resolution

In the event a dispute arises regarding an inspection that has been performed under this agreement, the Client agrees to notify the Inspector within ten (10) days of the date the Client discovers the basis for the dispute so as to give the Inspector a reasonable opportunity to reinspect the property. Client agrees to allow re-inspection before any corrective action is taken. Client agrees not to disturb or repair or have repaired anything which might constitute evidence relating to a complaint against the Inspector. Client further agrees that the Inspector can either conduct the reinspection himself or can employ others (at Inspector's expense) to reinspect the property, or both. In the event a dispute cannot be resolved by the Client and the Inspector, the parties agree that any dispute or controversy shall be resolved by mandatory and binding arbitration administered by the American Arbitration Association ("AAA") pursuant to Chapter 171 of the Texas Civil Practice & Remedies Code and in accordance with this arbitration agreement and the commercial arbitration rules of the AAA.
